This Is American Pipe & Plastics, Inc.

American Pipe and Plastics, Inc. is an American Owned manufacturing company located in upstate New York, just south of Binghamton. The company was incorporated in 1977 for the purpose of extruding PVC pipe and fabricated accessories for the Water, Sewer, Plumbing, and Telephone markets. In 1996 the company changed its focus, discontinuing pipes for the municipal markets and refocusing towards a more synergistic product offering, targeting the utility markets by adding Power Utility and CATV conduit and fabricated accessories to it's Telephone conduit line. In 2011 electrical conduit and accessories were added to complete the PVC conduit products used in the Telecommunications, Power Utility, and Electrical markets.
